Examiner's Amendments

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark J. Nuell, Ph.D., Registration No. 36,623, on 9/15/2011.

The application has been amended as follows:

Claim 10 is amended to the following: An isolated peptide having an amino acid sequence FHGGSWYRFPWGY as shown in SEQ ID NO: 1, wherein the peptides is a potassium channel modulator.

Claim 11 is cancelled.

Amendments to the Title of the Invention

The word novel is stricken from the title, leaving the title as Potassium Channel Modulator Peptide.

Reason for Allowance

The following is an examiner's statement of reasons for allowance: The instantly claimed is obtained from ANNADURAI (D. Annadurai et al. Proceedings of the National Seminar on Marine Biodiversity as a Source of Food and Medicine. (2002), Abstract), made of record in the previous office action. The amendments to an isolated peptide

overcome the rejection as the instantly claimed peptide is novel over the prior art. There is no teaching or suggestion in the prior art that would arrive at the instantly claimed peptide, isolated from *C. monile* venom.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 10, 12, and 17 are allowed.
